

FYidoctors Grows Presence in Aesthetic Medicine with First Clinic in Ontario

Kingston Laser Cosmetic Clinic announced as latest practice to join the doctor-led medical aesthetics company

CALGARY, AB (July 9, 2021) – FYidoctors, Canada’s leading diversified healthcare organization, today announced Kingston Laser Cosmetic Clinic (“**Kingston Laser**”) as the latest clinic to join the company. Known as a trusted aesthetic medicine practice in Kingston, the merger marks FYidoctors’ first aesthetic medicine clinic in the Province of Ontario.

Founded in 1998, Kingston Laser Cosmetic Clinic continues to be the leading provider of innovative non-surgical rejuvenation, skin care, and aesthetic treatments in the region. The state-of-the-art clinic is operated by Dr. Kerri Hoffman, Dr. Diane MacGillis and a team of dedicated professionals who are committed to providing exceptional care and personalized service to the clinic’s patients.

“We’re excited about our new partnership with FYidoctors, who share the same values and standards of excellence as Kingston Laser,” shares Dr. Hoffman. “While this is an opportunity for growth, we’re also connecting with leading aesthetic medicine clinics from across the country and integrating with one of Canada’s most trusted, doctor-led, organizations. We are enthused to enhance the quality of care we are able to provide to our patients.”

“As the aesthetic medicine industry in Canada continues to experience exponential growth, we are excited to bring doctor-led treatments into communities across the nation,” said Dr. Alan Ulsifer, CEO and Chairman of FYidoctors. “In partnering with Kingston Laser Cosmetic Clinic, we’re not only gaining the expertise of a reputable, doctor-led clinic, but also the ability to reach more patients and introduce them to FYidoctors’ personalized health care approach.”

Kingston Laser Cosmetic Clinic offers a wide range of treatments and services including cosmetic injections, body contouring; skin care and rejuvenation; halo, laser, and light therapy; and CoolSculpting. Dr. Hoffman and Dr. MacGillis personally perform all injectable treatments and are well known for their gentle techniques, commitment to safety and natural results.

Dr. MacGillis received both her undergraduate Degree in Life Sciences and Medical Degree from Queen’s University in Kingston and has since received extensive training and certifications in laser and cosmetic medicine. Dr. Hoffman completed her undergraduate Degree in Life Sciences at Queen’s University and her Medical Degree at the University of Ottawa and is committed to keeping up to date on the latest treatments and research available in the rapidly developing aesthetic medicine field. Collectively, the duo brings over 35 years of experience in aesthetic medicine.

As the first cosmetic clinic of its kind in the region, Kingston Laser has grown to be a trusted pillar in the community and active supporter of non-profits and community-led groups which will continue through FYidoctors' own [Enhancing Life Foundation](#). Past recipients over the last two decades include local sports organizations and the United Way. Kingston Laser have also been the proud recipients of the Kingston Chamber of Commerce Business of the Year Award, and the Consumer's Choice Award.
